Build the competence. Prove it with confidence.

COURSE BROCHURE

AWARENESS TRAINING · HEALTHCARE INFORMATION SECURITY

ADHICS Awareness Training

Self-paced online training (video) · 10 modules · about 115 min of video · about 3 hours in total · English, with captions

Understand the Abu Dhabi Healthcare Information and Cyber Security Standard, ADHICS Version 2, from governance and control categories to patient data privacy, incident reporting and the security habits of every healthcare worker.

WHO IT IS FOR

Doctors, nurses, allied health, administrative and IT staff of hospitals, centres, clinics, insurers and third-party administrators in Abu Dhabi, and staff of healthcare technology and service providers that handle their health information.

WHAT YOU WILL LEARN

- Explain why ADHICS exists and which entities and staff it applies to
- Describe the governance roles and the four control categories
- Recognise the eleven control domains and what they mean in daily work
- Protect patient information, from access and passwords to devices and e-mail
- Apply the privacy rules for personal and health information
- Recognise and report security incidents and play your part in continuity

MODULES (10)

1. Why ADHICS matters
2. ADHICS Version 2 and how it works
3. Governance, risk and classification
4. People and awareness
5. Assets, medical devices and physical security
6. Access control and passwords
7. Operations, cloud and third parties
8. Patient data privacy
9. Incidents and continuity
10. Your role, recap and the exam

PRICE
