AWARENESS TRAINING · AI GOVERNANCE

AI Governance for Leaders and Boards Training

Self-paced online training (video) · 10 modules · about 110 min of video · about 3 hours in total · English, with captions

Govern AI as a leader or board member: ISO/IEC 42001 leadership and AI policy, roles and accountability, AI risk criteria, impact assessment, suppliers, oversight and the NIST and OECD frameworks.

WHO IT IS FOR

Board members, chief executives, senior managers, heads of digital, data, risk, legal and compliance, and anyone who approves AI projects, owns an AI policy or answers to clients and regulators for the AI their organisation develops, provides or uses.

WHAT YOU WILL LEARN

- Explain why AI governance is a leadership duty and what ISO/IEC 42001 clause 5 requires of top management
- Describe trustworthy AI using the OECD AI Principles and the NIST AI RMF characteristics
- Set an AI policy, roles and accountability, with a way for people to report concerns
- Set AI risk criteria and use impact assessments to decide on AI systems
- Oversee AI bought from suppliers and keep responsibilities clear
- Ask the questions that test whether AI governance is working, and act on the answers

MODULES (10)

1. Why AI governance is a board matter
2. Trustworthy AI
3. Roles and the inventory
4. Leadership and the AI policy
5. Accountability and reporting concerns
6. AI risk criteria and appetite
7. AI system impact assessment
8. Suppliers and the AI you buy
9. Objectives, monitoring and review
10. Questions and a road map

PRICE

US$19 per learner

Per learner, by team size

1–10 learners	**US$19**
11–50 learners	**US$15**
51–200 learners	**US$13**

Excluding taxes.
