PRACTITIONER TRAINING · AI GOVERNANCE

AI Risk & Impact Assessment (ISO/IEC 42001:2023 and ISO/IEC 42005:2025)

Self-paced online training (video) · 16 modules · about 2 hours of video · about 4 hours in total · English, with captions

Assess AI risks and the impacts of AI systems on people and society, using ISO/IEC 42001:2023 with ISO/IEC 42005:2025 and ISO/IEC 23894:2023 guidance.

WHO IT IS FOR

AI governance leads, product owners, data scientists, and risk, privacy and compliance teams in organisations that develop, provide or use AI systems.

WHAT YOU WILL LEARN

- Explain how AI risk assessment, risk treatment and system impact assessment fit together in ISO/IEC 42001
- Identify AI risk sources and assess risks to the organisation's AI objectives
- Assess potential impacts of an AI system on individuals, groups and society across its life cycle
- Select treatment options and controls with reference to ISO/IEC 42001 Annex A
- Document assessments and keep them current as AI systems change

MODULES (16)

1. Why AI risk and impact assessment matter
2. Recap: what ISO/IEC 42001 requires
3. Profiling the AI system
4. Setting AI risk criteria
5. Identifying risks: objectives and sources
6. Data, life cycle and supplier risks
7. Analysing AI risks
8. Evaluating and prioritising
9. Planning the impact assessment
10. Impacts on individuals and groups
11. Impacts on society
12. Documenting the impact assessment
13. Treatment options and necessary controls
14. The statement of applicability
15. Treatment plan, approval and residual risk
16. Keeping both assessments alive

PRICE

US$99 per learner

Per learner, by team size

1–10 learners	**US$99**
11–50 learners	**US$79**
51–200 learners	**US$69**

Excluding taxes.
