AWARENESS TRAINING · QUALITY MANAGEMENT

# API Spec Q1 Awareness

Self-paced online training (video) · 10 modules · about 115 min of video · about 3 hours in total · English, with captions

Understand API Spec Q1, the quality management system specification for organisations providing products for the petroleum and natural gas industry.

## WHO IT IS FOR

Top management, quality teams, engineers, production, inspection and supply chain staff in the oil and gas supply chain

## WHAT YOU WILL LEARN

- Explain what API Spec Q1 is and why oil and gas customers expect it
- Describe how API Spec Q1 relates to ISO 9001
- Recognise the requirements that matter in daily work, such as records, inspection and control of nonconforming product
- Understand the role of risk-based thinking and supplier control in product quality
- Describe your own part in meeting customer and API requirements

## MODULES (10)

1. Why quality matters in oil and gas
2. API Spec Q1: the 10th Edition and its scope
3. How Spec Q1 builds on ISO 9001
4. Leadership, risk-based thinking and planning
5. Competence, documented information and records
6. Contract review and design
7. Purchasing and supplier control
8. Production, inspection and testing
9. Nonconformity, corrective action, audit and review
10. Your part, the API audit and the Monogram
