AS9120B Awareness Training

Self-paced online training (video) · 14 modules · about 2.5 hours of video · about 3.5 hours in total · English, with captions

What the aerospace distributor standard AS9120B expects from every person who buys, stores, splits, packs and ships aviation, space and defence parts.

WHO IT IS FOR

Every employee of an aviation, space or defence parts distributor: receiving, stores, sales, purchasing, shipping, quality and managers. New starters who need to know their part in the quality system, and teams preparing for an AS9120B certification audit. Suppliers and customers of distributors who want to understand what the standard asks of them.

WHAT YOU WILL LEARN

- Explain why parts distribution has its own standard and how AS9120B builds on ISO 9001:2015
- Recognise counterfeit and suspected unapproved parts, and know how to quarantine and report them
- Keep traceability intact from receipt through lot splitting, storage and delivery
- Check that certificates of conformity, test reports and release certificates are present and match the part
- Describe what must be flowed down to external providers in a purchase order
- Apply preservation, shelf-life and handling controls in stores and shipping
