PRACTITIONER TRAINING · ENVIRONMENTAL MANAGEMENT

Environmental Aspects and Impacts Training

Self-paced online training (video) · 12 modules · about 3 hours of video, plus practice exercises · about 6 hours in total · English, with captions

Identify environmental aspects and impacts with a life cycle perspective, set significance criteria and build an ISO 14001:2026 aspects register linked to compliance obligations and objectives.

WHO IT IS FOR

Environmental managers and officers, EHS coordinators, operations, facilities and engineering leads, sustainability staff, internal auditors and consultants who identify, evaluate or audit environmental aspects in an ISO 14001 system.

WHAT YOU WILL LEARN

- Explain environmental aspect, impact, condition and life cycle as ISO 14001:2026 defines them
- Identify aspects and impacts under normal, abnormal and emergency conditions
- Apply a life cycle perspective and decide what you control and what you can influence
- Set significance criteria that give consistent results, and determine significant aspects
- Link significant aspects to compliance obligations, risks and opportunities, objectives and controls
- Build, communicate and keep an aspects and impacts register up to date
