AWARENESS TRAINING · FOOD SAFETY

FSMA 204 Traceability and Food Defense Training (US FDA)

Self-paced online training (video) · English, with captions

Meet two US FDA rules: the Food Traceability Rule under FSMA section 204, with its key data elements, lot codes and 24-hour spreadsheet, and the Part 121 food defense plan.

WHO IT IS FOR

Food safety, quality, supply chain, logistics and IT staff, plant and security managers, importers and exporters to the US whose foods are on the Food Traceability List or whose facilities must keep a food defense plan.

WHAT YOU WILL LEARN

- Decide whether a food is on the Food Traceability List and which exemptions apply
- Identify the critical tracking events and key data elements for shipping, receiving and transformation
- Assign traceability lot codes and write a traceability plan
- Produce the sortable spreadsheet FDA can request within 24 hours
- Conduct a vulnerability assessment and identify actionable process steps under Part 121
- Set mitigation strategies with monitoring, corrective actions, verification and reanalysis

PLANNED OUTLINE

1. Why traceability and food defense
2. The Food Traceability Rule
3. Records in practice
4. Food defense under Part 121
5. Mitigation and management
