AWARENESS TRAINING · GOOD PRACTICE (GXP)

Good Distribution Practices (GDP) Awareness

Self-paced online training (video) · 12 modules · about 105 min of video · about 3 hours in total · English, with captions

Understand Good Distribution Practices and how correct storage, transport and handling keep medical products safe and genuine through the supply chain.

WHO IT IS FOR

Warehouse, logistics, transport, procurement and quality staff, supervisors and managers handling medical products

WHAT YOU WILL LEARN

- Explain what GDP is and why it matters to patients and regulators
- Describe how storage conditions and temperature control protect products
- Recognise risks in transport, handling and returns
- Understand how traceability and records help prevent falsified products reaching patients
- Know how to report deviations, damage and suspicious products

MODULES (12)
