AWARENESS TRAINING · GOOD PRACTICE (GXP)

Good Warehouse Practice Training

Self-paced online training (video) · 10 modules · about 110 min of video · about 3 hours in total · English, with captions

Run a pharmaceutical warehouse to GMP: receive and check goods, control quarantine and release status, store at the right conditions, rotate stock, keep pests out, dispatch correctly and handle returns.

WHO IT IS FOR

Warehouse and stores staff, supervisors and managers, dispensing and logistics staff, QA staff who oversee storage, and anyone new to a warehouse at a pharmaceutical, API or excipient site.

WHAT YOU WILL LEARN

- Explain why warehouse practice protects patients and what GMP asks of the warehouse
- Receive and check incoming materials and record what you find
- Control quarantine, released, rejected and returned status without mix-ups
- Keep materials within their storage conditions and act on excursions
- Rotate stock, respect retest and expiry dates and keep pests out
- Dispense, dispatch, handle returns and support recalls correctly

MODULES (10)

1. Welcome: why the warehouse matters
2. The rules and who does what
3. Layout, areas and flow
4. Receiving goods
5. Status control and labels
6. Storage conditions
7. Stock rotation and counts
8. Cleaning, pests and security
