PRACTITIONER TRAINING · OCCUPATIONAL HEALTH AND SAFETY

Hazard Identification and Risk Assessment (HIRA) Training

Self-paced online training (video) · 12 modules · about 3 hours of video, plus practice exercises · about 6 hours in total · English, with captions

Identify hazards, assess OH&S risks and choose controls the way ISO 45001 asks: methodology and criteria, the hierarchy of controls, change, review, and a HIRA register filled in.

WHO IT IS FOR

Health and safety officers and managers, supervisors and team leaders, health and safety committee members and workers' representatives, engineers and project leads, internal auditors and consultants who carry out or review hazard identification and risk assessment.

WHAT YOU WILL LEARN

- Explain hazard, OH&S risk, OH&S opportunity and the HIRA requirements of ISO 45001:2018
- Identify hazards from every source the standard lists, with workers taking part
- Define a risk methodology and criteria, and rate risks taking existing controls into account
- Select controls with the hierarchy of controls and plan them with owners and dates
- Assess the risks of change before it is made, and review the HIRA when things change
- Build a complete HIRA register and show how it works to an auditor

MODULES (12)

1. Why HIRA matters
2. Hazard, risk and opportunity
3. What ISO 45001 requires
4. Planning the HIRA
5. Hazards: work and people
6. Hazards: incidents, people and change
7. Assessing OH&S risk
8. Controlling risk: the hierarchy
9. The HIRA register filled in
10. Opportunities, other risks and change
11. Keeping the HIRA alive
12. Putting it together

PRICE

US$99 per learner

Per learner, by team size

1–10 learners	**US$99**
11–50 learners	**US$79**
51–200 learners	**US$69**

Excluding taxes.
