HIPAA Implementation Training

Self-paced online training (video) · 14 modules · about 3 hours of video · about 4.5 hours in total · English, with captions

Put the HIPAA Privacy, Security and Breach Notification Rules in place as a covered entity or business associate, from the security risk analysis and safeguards to policies, agreements and breach response.

WHO IT IS FOR

HIPAA privacy and security officers, compliance and IT managers at healthcare providers and health plans, and business associates such as medical billing, BPO, SaaS and IT-services companies that handle protected health information for US clients.

WHAT YOU WILL LEARN

- Determine whether your organisation is a covered entity, a business associate or both, and what applies
- Identify protected health information and electronic PHI across your processes and systems
- Run and document a security risk analysis and a risk management plan
- Implement the administrative, physical and technical safeguards of the Security Rule
- Apply the Privacy Rule: permitted uses and disclosures, minimum necessary and individuals' rights
- Put business associate agreements, workforce training and breach response in place, and keep the records
