AWARENESS TRAINING · HEALTH & SAFETY

Incident Investigation for Health and Safety Training

Self-paced online training (video) · 10 modules · about 105 min of video · about 3 hours in total · English, with captions

Investigate workplace accidents and near misses so that they do not happen again: what ISO 45001 requires, the four investigation steps, immediate, underlying and root causes, human factors and action plans that work.

WHO IT IS FOR

Supervisors, team leaders, health and safety officers and coordinators, safety representatives, line managers, members of investigation teams, and internal auditors and consultants who review incident investigations against ISO 45001.

WHAT YOU WILL LEARN

- Explain what ISO 45001 clause 10.2 requires when an incident or near miss occurs
- Take the right first actions and decide the depth of an investigation from the worst potential outcome
- Gather evidence from the scene, the people and the records without blame
- Separate immediate, underlying and root causes, including human and organisational factors
- Choose controls with the hierarchy of controls and write a SMART action plan
- Check that actions worked and use incident records to spot trends

MODULES (10)

1. Why investigations matter
2. What ISO 45001 requires
3. The first hour
4. Deciding how deep to go
5. Gathering the facts
6. Finding the causes
7. Human factors without blame
8. Choosing controls that work
9. The action plan and report
10. Closing the loop

PRICE

US$19 per learner

Per learner, by team size

1–10 learners	**US$19**
11–50 learners	**US$15**
51–200 learners	**US$13**

Excluding taxes.
