PRACTITIONER TRAINING · INFORMATION SECURITY

Information Security Incident Management Training

Self-paced online training (video) · 12 modules · about 2.5 hours of video, plus practice exercises · about 5.5 hours in total · English, with captions

Prepare for, detect, assess, contain and recover from information security incidents, preserve evidence, meet GDPR and NIS2 notification deadlines, and turn every incident into lasting improvement.

WHO IT IS FOR

Incident managers and responders, information security managers, IT and service desk leads, SOC analysts, data protection officers, compliance officers, ISO/IEC 27001 implementers and auditors, and managed service providers.

WHAT YOU WILL LEARN

- Explain what NIST SP 800-61 Rev. 3 and ISO/IEC 27001 expect of incident management
- Prepare an incident response plan, with roles, contacts and a severity scale
- Assess security events, declare incidents and set priorities with clear criteria
- Contain, eradicate and recover, while preserving evidence that will stand scrutiny
- Meet GDPR and NIS2 notification deadlines with one combined timeline
- Run post-incident reviews and exercises that improve controls

MODULES (12)

1. Why incident management matters
2. The frameworks: NIST and ISO/IEC 27001
