AWARENESS TRAINING · ENVIRONMENTAL MANAGEMENT

ISO 14001:2026 Transition Training

Self-paced online training (video) · 10 modules · about 120 min of video · about 3 hours in total · English, with captions

Move your environmental management system from ISO 14001:2015 to ISO 14001:2026: what changed in every clause, what to update, the documented information, and the published dates for the transition.

WHO IT IS FOR

EMS managers, environmental and sustainability officers, management representatives, internal auditors and consultants in organisations certified to ISO 14001:2015, and anyone who must plan and lead the move of an environmental management system to the 2026 edition.

WHAT YOU WILL LEARN

- Explain what changed in ISO 14001:2026 compared with ISO 14001:2015, clause by number and title
- Update context, interested parties and scope for environmental conditions and the life cycle
- Apply the restructured planning clauses, including risks and opportunities and planning of changes
- Revise documented information to the new “available as documented information” wording
- Plan a gap assessment, the updates, internal audit and management review before the transition audit
- State the published transition dates and what the transition audit reviews

MODULES (10)

1. Why the transition matters
2. ISO 14001:2026 essentials
3. Context, interested parties and scope
4. Leadership, policy and roles
5. Planning: aspects, obligations, risks
6. Objectives and planning of changes
7. Support and operation
8. Evaluation, review and improvement
9. The documented information map
10. The path to migrate
