Build the competence. Prove it with confidence.

COURSE BROCHURE

PRACTITIONER TRAINING · MEDICAL LABORATORIES

ISO 15189:2022 Implementation Training

Self-paced online training (video) · 26 modules · about 6 hours of video, plus practice exercises · about 13 hours in total · English, with captions

Put every ISO 15189:2022 requirement in place in your medical laboratory, from the patient's request to the reported result, including point-of-care testing and accreditation readiness.

WHO IT IS FOR

Quality managers of medical laboratories leading accreditation, laboratory directors and section heads, point-of-care testing coordinators, and hospital quality and patient-safety staff.

WHAT YOU WILL LEARN

- Safeguard impartiality and confidentiality, and meet the requirements regarding patients
- Manage personnel competence, facilities, equipment, calibration, reagents and consumables
- Control the pre-examination, examination and post-examination processes
- Verify and validate examination methods and ensure the validity of results
- Report results, including critical results, and handle nonconforming work and complaints
- Run point-of-care testing governance and plan for accreditation
