PRACTITIONER TRAINING · FOOD SAFETY

ISO 22000:2018 Implementation Training

Self-paced online training (video) · 25 modules · about 6 hours of video, plus practice exercises · about 13 hours in total · English, with captions

Put every ISO 22000:2018 requirement in place on your own production floor, from prerequisite programmes and hazard analysis to a validated hazard control plan and certification readiness.

WHO IT IS FOR

Food safety team leaders and HACCP team members, quality and technical managers building or rebuilding the FSMS, production and operations managers who own PRPs and control measures, and project leads supporting an ISO 22000 project.

WHAT YOU WILL LEARN

- Set the context, scope, food safety policy and food safety team
- Put prerequisite programmes and the traceability system in place, and prepare for emergencies
- Carry out the preliminary steps and the hazard analysis
- Select and categorize control measures as OPRP or CCP and validate them
- Build the hazard control plan with critical limits, action criteria and monitoring
- Verify, audit, review and improve the FSMS, and plan for certification
