PRACTITIONER TRAINING · HEALTH & SAFETY

ISO 45001:2018 Implementation Training

Self-paced online training (video) · 24 modules · about 5.5 hours of video, plus practice exercises · about 13 hours in total · English, with captions

Put every ISO 45001:2018 requirement in place with the workers who face the hazards, from hazard identification and risk assessment to operational control, incidents and certification readiness.

WHO IT IS FOR

OH&S managers and EHS coordinators, implementation team members from operations, maintenance, HR and procurement, safety committee members and worker representatives, and project managers supporting an ISO 45001 programme.

WHAT YOU WILL LEARN

- Determine issues, workers and other interested parties, and the scope of the OH&S management system
- Set up consultation and participation of workers, including non-managerial workers
- Identify hazards and assess OH&S risks and opportunities with a clear methodology
- Plan controls with the hierarchy of controls, manage change, contractors and emergencies
- Monitor performance, evaluate compliance, investigate incidents and run audits and reviews
- Build a dated road map to certification readiness
