# ISO 50001:2018 Internal Auditor Training

Self-paced online training (video) · 26 modules · about 6 hours of video · about 8.5 hours in total · English, with captions

Plan and carry out internal audits of an energy management system against ISO 50001:2018, clause by clause, following ISO 19011:2026, from the energy review and SEUs to EnPIs, baselines and improvement.

## WHO IT IS FOR

Energy managers and energy team members, facilities, utilities and engineering staff, quality and environmental auditors adding ISO 50001, process owners who run significant energy uses, and coordinators of internal audit programmes.

## WHAT YOU WILL LEARN

- Explain what ISO 50001:2018 clause 9.2 requires of internal audits, including energy performance improvement
- Audit the energy review, significant energy uses and their relevant variables
- Audit EnPIs, energy baselines, normalization and the energy data collection plan
- Audit operational control, design and procurement for significant energy uses
- Trace one significant energy use through every clause, from data to management review
- Write clear nonconformities, report results and follow up corrective action
