AWARENESS TRAINING · ARTIFICIAL INTELLIGENCE

ISO/IEC 42001:2023 Awareness

Self-paced online training (video) · 15 modules · about 115 min of video · about 3.5 hours in total · English, with captions

Understand the purpose of an AI management system and how governance, risk and individual responsibilities support responsible use of artificial intelligence.

WHO IT IS FOR

Employees, managers and teams who develop, provide or use AI systems in their organisation.

WHAT YOU WILL LEARN

- Explain what ISO/IEC 42001 is and why organisations adopt it
- Describe the structure of the standard and how its clauses fit together
- Understand the difference between an AI risk assessment and an AI system impact assessment
- Recognise the kinds of controls the standard's Annex A covers
- Describe your own responsibilities when developing, providing or using AI

MODULES (15)

1. Why AI needs managing
2. What makes AI different, and your role
3. ISO/IEC 42001: what it is and how it is built
4. Context, interested parties and scope
5. Leadership, AI policy and roles
6. AI risk assessment and treatment
7. The AI system impact assessment
8. Objectives, resources and people
9. The AI system life cycle
10. Data for AI systems
11. Responsible use, users and suppliers
12. Checking, improving, and your part
13. Transparency, explainability and human oversight
14. AI incidents: monitoring, response and nonconformity
15. ISO/IEC 42001, the AI Act and NIST, and your part

PRICE

US$19 per learner

Per learner, by team size

1–10 learners	**US$19**
11–50 learners	**US$15**
51–200 learners	**US$13**

Excluding taxes.
