PRACTITIONER TRAINING · AI GOVERNANCE

ISO/IEC 42001:2023 Implementation Training

Self-paced online training (video) · 24 modules · about 5.5 hours of video, plus practice exercises · about 12.5 hours in total · English, with captions

Put every clause and Annex A control of ISO/IEC 42001:2023 in place for the AI your organisation develops, provides or uses, from AI risk and impact assessment to the Statement of Applicability and certification readiness.

WHO IT IS FOR

AI governance leads and managers, heads of data science, engineering and product who own AI systems, risk, compliance, legal and data privacy managers, and ISMS or QMS managers integrating ISO/IEC 42001.

WHAT YOU WILL LEARN

- Determine issues, intended purposes and your organisation's role for each AI system
- Set the AI policy, roles, AI risk criteria and the scope of the AI management system
- Assess and treat AI risks, and choose the necessary controls against Annex A
- Prepare the Statement of Applicability and carry out AI system impact assessments
- Run the AI system life cycle and data controls in operation
- Audit, review and improve the AI management system, and plan for certification
