PRACTITIONER TRAINING · AUTOMOTIVE QUALITY

PPAP: Production Part Approval Process Training

Self-paced online training (video) · English, with captions

Prepare, review and submit a complete production part approval package, from the design record and process FMEA to measurement results, the Part Submission Warrant and customer approval.

WHO IT IS FOR

Supplier quality engineers, quality and product engineers, PPAP coordinators and quality managers at automotive suppliers, and buyers and supplier development staff who review PPAP submissions.

WHAT YOU WILL LEARN

- Explain the purpose of PPAP and when a submission is required
- Prepare each PPAP element, from the design record to the control plan
- Choose the right submission level and meet customer-specific requirements
- Use measurement system and initial process study results correctly
- Complete the Part Submission Warrant and respond to customer decisions
- Recognise the changes that need customer notification and resubmission

PLANNED OUTLINE

1. PPAP foundations
2. The PPAP elements
3. Measurement and capability evidence
4. Submission and approval
5. Changes and resubmission
6. Reviewing PPAP as a customer
