AWARENESS TRAINING · GOOD PRACTICE (GXP)

QC Sampling and Retention Samples Training

Self-paced online training (video) · 10 modules · about 110 min of video · about 3 hours in total · English, with captions

Sample starting materials, packaging, in-process material and finished products so that results represent the batch, and keep reference and retention samples that are complete, correctly stored and ready when needed.

WHO IT IS FOR

QC samplers and analysts, warehouse staff who assist with sampling, QA staff, QC supervisors and managers, and Qualified Persons at pharmaceutical, API and excipient sites.

WHAT YOU WILL LEARN

- Explain why representative sampling decides whether a test result means anything
- Choose and justify a sampling plan for a delivery of starting material
- Decide when every container needs an identity test
- Take, label and handle samples without contaminating them or the batch
- Keep reference and retention samples of the right size, for the right time
- Use retained samples well in complaints and investigations

MODULES (10)

1. Welcome: why sampling matters
2. The rules in brief
3. Sampling plans
4. Identity of every container
5. The sampler and technique
6. Packaging, in-process and finished
7. Handling samples
8. Reference samples
9. Retention samples
10. Putting it together

PRICE

US$19 per learner

Per learner, by team size

1–10 learners	**US$19**
11–50 learners	**US$15**
51–200 learners	**US$13**

Excluding taxes.
