SAMA Cyber Security Framework Awareness Training

Self-paced online training (video) · 10 modules · about 115 min of video · about 3 hours in total · English, with captions

Understand the SAMA Cyber Security Framework, version 1.0, from its four domains and maturity model to governance, risk, everyday operations, third parties and what it asks of every employee in Saudi financial institutions.

WHO IT IS FOR

Employees, team leaders and managers of banks, insurers, financing companies, credit bureaus, payment service providers and other organisations under the SAMA Cyber Security Framework, and suppliers that serve them.

WHAT YOU WILL LEARN

- Explain why SAMA issued the framework and which organisations it applies to
- Describe the four domains, the principle-based structure and the maturity levels
- Recognise the governance the framework expects: board, committee, CISO and policy
- Describe cyber security risk management, reviews, audits and compliance
- Apply everyday operations and technology controls in your own role
- Describe third-party and cloud security expectations and how incidents are handled
