# Saudi NCA Essential Cybersecurity Controls (ECC) Awareness Training

Self-paced online training (video) · 11 modules · about 115 min of video · about 3 hours in total · English, with captions

Understand what Saudi Arabia's Essential Cybersecurity Controls (ECC-2:2024) mean for your organisation and your own role, from governance and everyday defences to incidents, resilience, suppliers and cloud services.

## WHO IT IS FOR

Employees, managers and leaders at Saudi government entities, their affiliated companies and private owners or operators of critical national infrastructure, and staff of suppliers and service providers that support them.

## WHAT YOU WILL LEARN

- Explain why the NCA issued the ECC and which entities must comply
- Describe the four main domains and how the controls are numbered and organised
- Recognise the governance the ECC expects: strategy, a cybersecurity department, policies and risk management
- Apply everyday controls in your own role, from access and e-mail to devices and data
- Spot and report a cybersecurity incident, and support business continuity
- Understand what the ECC expects of suppliers, managed services and cloud providers

## MODULES (11)

1. Why the ECC
2. The NCA and who must comply
3. How the ECC is built
4. Strategy, department and policies
5. Risk, projects, compliance and audit
6. People: HR, awareness and training
7. Everyday defences
8. Technical defences
9. Detect, respond and recover
10. Third parties and cloud
11. Your role, compliance and the exam
