AWARENESS TRAINING · AUDITING

Using AI in Audits and Compliance Work Training

Self-paced online training (video) · 10 modules · about 110 min of video · about 3 hours in total · English, with captions

Use AI tools in audit and compliance work without weakening the audit: ISO 19011:2026 principles, confidentiality, planning, evidence and verification, sampling, findings and reports, remote audits and competence.

WHO IT IS FOR

Internal auditors, second-party and supplier auditors, quality, environmental, safety and information security managers, compliance officers and consultants who plan audits, review evidence or write reports and want to use AI tools safely in that work.

WHAT YOU WILL LEARN

- Describe what AI tools can and cannot do in audit and compliance work
- Apply the ISO 19011:2026 principles of auditing when AI tools are used
- Protect auditee and client information when using AI tools
- Treat AI output as a lead to verify, never as audit evidence on its own
- Write findings and reports with AI help that stay accurate, fair and traceable
- Set simple rules for AI use in your audit programme, including remote audits

MODULES (10)

1. AI meets auditing
2. Where AI tools go wrong
3. The principles of auditing
4. Confidentiality and permissions
5. Planning an audit with AI help
6. Collecting and verifying information
7. Sampling and data analysis
8. Findings, reports and records
9. Remote audits and AI note takers
10. Competence and programme rules

PRICE

US$19 per learner

Per learner, by team size

1–10 learners	**US$19**
11–50 learners	**US$15**
51–200 learners	**US$13**

Excluding taxes.
